Information on Standard Error of Measurement

A student's score is best interpreted when recognizing that the student's knowledge and skills fall within a score range and not just a precise number. For example, 2300 (±30) indicates a score range between 2270 and 2330.

Lexile® Information

The Lexile® Framework for Reading is a scientific approach to reading and text measurement. There are two Lexile measures: the Lexile reader measure and the Lexile text measure. A Lexile reader measure represents a person's reading ability on the Lexile scale. A Lexile text measure represents a text's difficulty level on the Lexile scale. When used together, they can help a reader choose a book or other reading material that is at an appropriate difficulty level. For more information on Lexile measures in Idaho, visit the Idaho SDE Assessment and Accountability webpage here: <https://www.sde.idaho.gov/assessment/lexile-quantile>

Your Child's Progress

Longitudinal Trend Chart Information

The chart below reports your child's performance over time. The shaded areas in multiple colors indicate the scale score range in each achievement level. Each mark on the graph represents your child's score and indicates whether he or she met the standards that year. Please note that a scale score from Spring 2020 summative testing is not included on the graph. A waiver for summative testing in Spring 2020 was granted by the U.S. Department of Education.
